learn for life

Avicenna – Batumi Medical University

The first Medical University in Georgia founded on the platform of a network of hospitals.

The university offers a unique approach to medical education by incorporating clinical training within its campus, utilizing hospitals as clinical bases. This allows students to gain hands-on experience and practical knowledge in a real-world

The motto of the university is *learn for life*

About Georgia

Situated at the strategically important crossroads where Europe meets Asia, Georgia has a unique and ancient cultural heritage, and is famed for its traditions of hospitality and cuisine. Often ranked as one of the safest countries in the world, Georgia has visa free regime with 95 countries.

Boasting a 8,000 years old wine making tradition, unique alphabet and folklore all of which are protected by UNESCO, rich cuisine, highest settlement of Europe and many more- Georgia has something to offer to every taste.

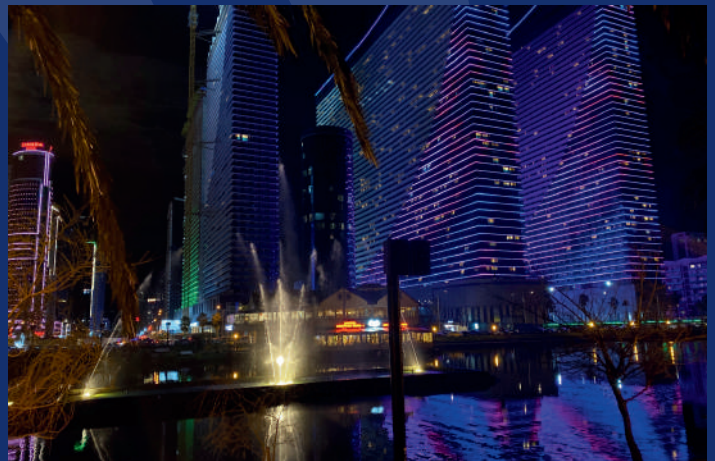

About Batumi

Batumi is the capital city of the Autonomous Republic of Ajara and is the second-largest city in Georgia. It presents an eclectic mix of architecture, ranging from charming 19th-century classical edifices to ultra-modern skyscrapers. Located on the coast of the Black Sea, it is lined with palm trees and surrounded by mountains. Batumi has always been distinguished by a favourable natural and strategic location. Batumi is characterized by a seacoast humid subtropical climate. The average annual temperature is 14.5°C.

The average temperature in January, the coldest month, is 7.1°C, and in August, the warmest month, 23.2°C. The annual precipitation is 2,560 mm. Showers are frequent. It rarely snows but when it does, the snow melts easily. The average annual temperature of the sea is 16.7°C at the shore. Much of Batumi's economy revolves around tourism but the city is also an important seaport and includes industries like shipbuilding, food processing, and light manufacturing.
